

EZ-ACCESS® TELESCOPIC TRACK RAMP

Available in 7ft- and 10-ft lengths. Designed for manual and/or power wheelchairs. Two telescopic channel ramps each extend to be used on steps, vans, or curbs. For storage, simply pick up each rail and depress the guide buttons to collapse.

Constructed of sturdy, anodized and extruded aluminum, these individual tracks offer the lightest weight and most compact storage of any ramp in their length class. Features a non-skid driving surface to provide greater traction, even when wet.
